

the EVASONS

MARVELS OF THE MIND

The Evasons are **The Mentalist Duo**—renowned for revolutionizing the art of Second Sight and taking it to extraordinary new heights. For more than three decades, Jeff and Tessa Evason have captivated audiences around the globe with jaw-dropping, interactive mind-reading feats that defy explanation—from Las Vegas showrooms and Hollywood TV studios to corporate events, cruise ships, and sold-out theatres.

Jeff grew up in Canada, where his fascination with magic began in childhood. Inspired by guest magicians on classic TV shows like *The Ed Sullivan Show*, *Mike Douglas*, and *Merv Griffin*, he began honing his own skills in the magical arts. Tessa was raised on the Caribbean island of St. Lucia, where her love for mystery took root while watching a weekly magic series on the island's only television station.

Their paths crossed in 1983 thanks to a mutual friend—a Toronto fashion designer—who invited them to collaborate on a live event. During their debut performance, Tessa levitated onstage during a fashion show. The audience was stunned, and so were they. That unforgettable moment sparked both a creative partnership and a personal connection that evolved into one of the most original and compelling acts in the world of mystery entertainment.

What sets The Evasons apart is not just their skill, but their authenticity. Performing together with warmth, humor, and elegance, they create an atmosphere of wonder and connection that resonates deeply with audiences. Tessa's uncanny ability to reveal names, birthdates, and even personal secrets while blindfolded is at the heart of their act—and a mystery even skeptics can't ignore.

Their work has been featured on international television shows including *Penn & Teller: Fool Us*, *The World's Greatest Magic*, *Powers of the Paranormal*, and *Masters of Illusion*. They've received numerous honors, including the **Award for Notable Contribution to the Art of Mentalism** from the Milbourne Christopher Foundation, the **Award for Distinguished Professionalism in the Performance of Mentalism** from the Psychic Entertainers Association, and a rare **SARMOTI Award**—personally presented by Siegfried & Roy in Las Vegas.

Jeff and Tessa remain fiercely committed to integrity in their work. They do not use plants, stooges, or concealed electronic cueing or signaling devices—including hidden microphones, earpieces, cameras, or radios—to secretly communicate. In fact, they pledge to pay \$100,000 to anyone who can prove otherwise. What you see is what you get—just pure, refined mentalism.

Whether performing for Fortune 500 companies, university students, or prime-time TV audiences, The Evasons deliver a mind-blowing, interactive experience that leaves people inspired, amazed, and talking long after the curtain falls.
