FOR IMMEDIATE RELEASE

Award-Winning Mentalist Duo Astound the World Over

Annapolis, MD...

If you have never heard of the Easons, you will – very soon. That's because Jeff and Tessa Eason are coming your way to perform their incredible brand of mind power, and it's a show that generates a great deal of amazement – and enthusiasm.

Since 1983 the Easons, who are based in Toronto and Annapolis, have astounded audiences the world over. People react with wide-eyed wonder when Tessa and Jeff demonstrate their psychic entertainment abilities with ESP, intuition, prediction and second sight.

This slick blend of interactive demonstration, comic relief and spellbinding entertainment is definitely not a magic show. There are no wires or hidden communication devices. Nothing is prearranged with secret assistants or audience members. In fact, the Easons offer \$100,000 to anybody who can prove otherwise. The experience defies explanation. And maybe that's why the crowds go wild at every show.

There's never a dull moment for Jeff and Tessa, who spend much of their year on the road entertaining audiences at college or corporate events, theatres, cruises or casino showrooms. They have also performed their acts to audiences in the millions through network television programs. On NBC's *World's Greatest Magic V*, they were called: "The finest act of its kind in the world," while their performance on Fox's *Powers of the Paranormal* was touted as: "The most amazing mind reading act you will ever see." In fact, the Discovery Channel hails them as: "A new generation of mentalists."

It's no wonder that Siegfried & Roy named The Easons their favorite act, presenting them with the SARMOTI Award at the World Magic Seminar in Las Vegas. They are recognized by their peers and fans alike as one the world's top mentalist acts. Their stylish presentation and stunning showcase of talent has also earned them the distinction of receiving the Psychic Entertainers Association's most prestigious honor for distinguished professionalism.

"Many times during our show, people are totally speechless because they've never seen anything like this before," said Jeff Eason. "The experience of wonder is not only magical and mysterious, it can also be empowering and enlightening."

Tessa enjoys talking with audience members after the show. She explained, "Jeff and I are fortunate to have a close connection. A lot of people are searching for their Soul Mate. I've

always believed that we should allow ourselves to trust intuition. It can help us make much better decisions about important personal matters.”

Jeff and Tessa think it’s good for people to be skeptical and to ask questions about things they don’t understand. “A lot of things that up until recently were considered to be a mystery can now easily be explained by science” said Jeff. “However, the greatest mystery of all is still the human mind.” Tessa adds “As more is learned about the human brain, the human mind seems even more mysterious!”

Even though Tessa and Jeff don’t ask you to believe, once you see her blindfolded, calling out the names of strangers, reciting the serial numbers from a bill in an audience member’s pocket or telling you your grandmother’s name, it gets a lot easier to suspend your disbelief.

Go to their show and find out for yourself.
